

Multi Coating Graffiti Cleaner

PRODUCT INFORMATION:

Multi Coating Graffiti Cleaner is a liquid gel for removing tagging and graffiti from most surfaces.

AREAS OF USE:

Remove tagging and graffiti from most surfaces. Both on hard, non-absorbent surfaces, on porous surfaces and industrially painted surfaces. For example, plexiglass, aluminum, glass, ceramic tiles, stainless steel, steel sheets, concrete, brick, slate, granite, asphalt and wood. Also very effective for removing window film / advertising film.

INSTRUCTIONS FOR USE:**Graffiti removal on hard, smooth surfaces:**

Apply a thick layer of Multi Coating Graffiti Cleaner with a brush or roller, and wait from 5 minutes to 1 hour. When the graffiti dissolves, start rinsing with a high-pressure washer with a water temperature of approx. 70-90°C, 100-150 bar. Recommended nozzle angle is 15 °-25 °, 20 liters/minute. On old and well-dried graffiti, repeat the process as needed.

Graffiti removal on porous surfaces:

Apply Multi Coating Graffiti Cleaner with a brush or coarse roller. Work the product well into the surface. Rinse with a high-pressure cleaner with water temperature approx. 70-90°C, 150 bar, or a user-defined pressure that does not damage the surface. Recommended nozzle angle is 15°- 25°, 20 liters/minute.

NOTE! On metal surfaces, the effect may be reduced if too high a water pressure is used.

Here, working with a stiff brush or a scouring pad and rinsing with water will be better.

The treatment is repeated until graffiti etc. is completely removed.

CONSUMPTION: 0.3 - 1.0 L / m² - depending on surface properties/porosity.

Do not thin before use.

SAFETY:

H319 Causes serious eye irritation. H412 Harmful to aquatic life with long lasting effects. P101 If medical advice is needed, have product container or label at hand. P102 Keep out of reach of children. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P337+P313 If eye irritation persists: Get medical advice/attention.

STORAGE: Store in a dry, frost-free place.
