

Multi Coating SuperRens

PRODUCT INFORMATION:

Multi Coating SuperRens is a concentrated water-dilutable cleaner that effectively removes limescale, cement haze, salt deposits, grout haze, tile adhesive residue, rust and excess mortar/concrete spills on concrete, brick, ceramic tiles, natural stone, etc. (must not be used on polished marble/slate). Can also be used to clean and wash limescale and rust on sanitary equipment in toilets and cloakroom facilities. MultiCoating SuperRens has a bactericidal effect and has a very good ability to penetrate and dissolve limescale and salt deposits, etc.

AREAS OF USE:

Facades, bathrooms, concrete structures, tiles, bricks and natural stone.

NB! Must not be used on polished marble/slate, as it can dull these.

Always test on a small area before full-scale cleaning, to ensure correct mixing ratio.

MIXING RATIO: • Light cleaning: 1:10 - 1:20

• Grout, cement grout, etc.: 1:5 - 1:10

• Rougher cleaning, rust removal: Concentrated - 1:2

INSTRUCTIONS FOR USE:

Apply with a brush, roller, spray can, or similar. Leave to work for 1-10 minutes. On heavily soiled surfaces, scrub the area with a soft brush or similar. Wear rubber gloves and safety glasses when using. Wipe/rinse off with water or a damp cloth/mop after cleaning. NB: Do not allow to dry on the surface before washing/rinsing, grout may be weakened by exposure to concentrate.

STORAGE: Does not tolerate frost.

PH VALUE: Concentrate: 2 PH, Mixed 1:3: 3 PH, Mixed 1:10: 4-5 PH

CONTENTS INDUSTRIAL/PROFESSIONAL:

Phosphoric acid. Hydrochloric acid. Content according to detergent regulations: Hydrochloric acid. < 5 % non-ionic

surfactants. < 5 % cationic surfactants.

DANGER: Causes severe burns to skin and eyes. May be corrosive to metals.

If medical advice is needed, have product container or label at hand.

Keep out of reach of children. Wear protective gloves / protective clothing / safety glasses / face shield.

Do not breathe dust / fumes / gas / mist / vapor / aerosols. IF SWALLOWED: Rinse mouth. DO NOT induce vomiting. IF ON SKIN (or hair): Remove contaminated clothing immediately. Rinse [or shower] skin with water. IF IN EYES: Rinse cautiously with water for several minutes.

Remove contact lenses, if present and easy to do.

Continue rinsing. Get medical attention immediately.
